### Statutory Changes

- Minor changes in Assam Form-13 eReturn.
- Maharashtra eReturn Annexure as per new format.

### Minor Changes

- *User's Favourite Menu* elements were being shown randomly. Now will be sorted alphabetically.

### Bugs Removed

- Stock Status report; option 'Treat Alt. Unit as Compound Unit' enabled, stock status for Items having *Alt. Unit Con. Factor* as 1 was not being shown properly. Now problem rectified.
- Tax Inclusive Sales/Purchase voucher; option to calculate tax 'Over & Above MRP' was not working properly. Now problem rectified.
- POS data entry with Multi Tax Rate voucher; during modification, if item amount was changed sometimes the VAT amount in bill sundry was not getting updated as per the new item amount. Now problem rectified.
- Party-Item pricing configuration; while selecting items under a group, only direct child under that group were being displayed and indirect child were not being displayed. Now problem rectified.
- Above problem was there in Item barcode printing also. Now problem rectified.
- 'Check Incomplete Vouchers' utility was sometimes showing vouchers which were actually perfect (Debit & Credit Balance being equal). Now problem rectified.
- An error was being generated while printing 'Account Activity Report'. Now problem rectified.

- Purchase Return voucher with Item parameter-wise data entry, the original sales price as tagged with parameter combination was not being picked properly. Now problem rectified.
