

## Product Release Information

From	:-	Mktg Deptt	To	:-	All
Product	:-	BUSY	Version	:-	16 (Rel 2.2)
Compilation Date	:-	22.01.2016	Document Date	:-	22.01.2016

### Statutory Changes

- Punjab VAT-15 eReturn as per new template.
- MP VAT-10 eReturn as per new template.

### Minor Changes

- Party dashboard during support calls, if Item Warranty/AMC feature was disabled then grid showing the details for the same was also being shown as disabled. Now the grid will not be shown altogether and the space will be utilised by other data components.
- Item Master; if price was specified for Alt. Unit only then during data entry, by default Alt. Unit was being shown as transaction unit. Now it has been reversed to maintain backward compatibility and Main Unit will always be shown as transaction unit.

### Bugs Removed

- Item Master, if price was specified for Alt. Unit only then in some cases same was not being picked up properly during transactions. Now problem rectified.
- If Item Warranty/AMC feature was enabled and auto creation of Bill References was also enabled then during voucher feeding, an error was being generated. Now problem rectified.
